

# Task 1: Create Normal Headings

Write Markdown to create:

A level 1 heading: "My Title"

A level 2 heading: "My Subtitle"

A level 3 heading: "My Section"

## My Title

### My Subtitle

#### My Section

# Task 2: Center a Heading

Create a centered heading: "Welcome to My Notebook".

## Welcome to My Notebook

# Task 3: Insert an Image

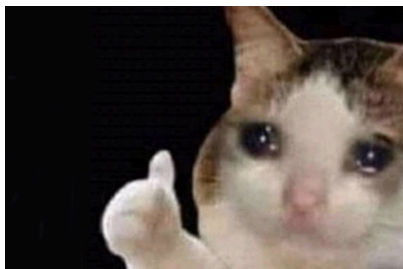

Insert an image using the Markdown syntax:

Hint: Use any sample image from your computer (e.g., cat.png ) or a link to an online image.

## Task 4: Resize an Image

Resize an image to 200px width using HTML inside Markdown.

## Task 5: Image + Text Side by Side

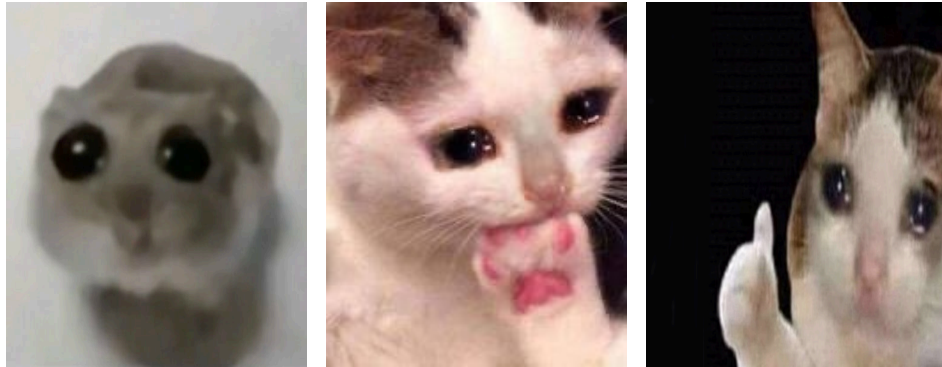

Insert an image on the left and some text on the right.

Image + text.

## Task 6: Display 3 Images Side by Side

Insert three images next to each other in the same row.

## Challenging Task: Centered Title with an Image

Create a centered heading: "My Favorite Animal" and display an image right below it, centered.

### My Favorite Animal
